THE SINGLE FOOD AUDIT PACK FROM SGS HELPS TO MEET THE REQUIREMENTS OF MOST INTERNATIONALLY RECOGNISED FOOD SAFETY OR QUALITY STANDARDS COST-EFFECTIVELY WITH A SINGLE AUDIT.

HOW CAN A SINGLE FOOD AUDIT PACK BENEFIT YOU?

- Helps and demonstrates the implementation of a most complete management systems for food safety and / or quality
- Provides a more cost-effective service delivery through a single audit*
- Causes less disruption; you can diary a single audit for multiple standards
- Addresses 'non-conformities' in a coordinated manner thanks to the SGS audit team with plenty of experience and knowledge across all involved standards
- Meets all customer requirements through a single process and report
- Makes it simpler and easier for senior management to review the management systems through the single audit report containing a single set of conclusions
- Assists internal alignment of different management systems thus improving efficiency
- Makes it possible to issue separate certificates simultaneously against all involved standards through just one audit.

* The level of saving depends on the number of standards involved, size of the company and the complexity of the audit. Please ask a detailed calculation from your local SGS representative.

COMPLEX SUPPLY CHAINS CAN MEAN MULTIPLE, PARALLEL REQUIREMENTS FOR SUPPLIERS AND LEAD TO DUPLICATE SYSTEMS, AUDITS AND PAPER WORK.

There are many similarities in the requirements of so many food safety and quality standards. The Single Food Audit Pack from SGS is a set of solutions that help to meet the requirements of most internationally recognised food safety or quality standards including ISO 22000, ISO 9001, HACCP, GMP, BRC and IFS with a single audit. They provide a cost-effective route for you to achieve your quality and safety objectives.

ONE AUDIT IS BETTER FOR BUSINESS

With the aid of the Single Audit Pack from SGS, your organisation can construct a single, and complete food safety and quality management system and get it audited using a consolidated audit checklist. A single audit to cover the combined requirements of different combinations of food safety and quality standards means less audit and management time and less disruption of operations. The result is your business becomes more effective.

WHAT STANDARDS DOES SINGLE FOOD AUDIT PACK COVER?

Single Food Audit Pack solutions offer six combinations of different international food safety and quality standards:

Pack 1	ISO 9001 + ISO 22000
Pack 2	ISO 22000 + HACCP/GMP
Pack 3	ISO 22000 + ISO 9001 + HACCP/GMP
Pack 4	ISO 22000 + BRC
Pack 5	ISO 22000 + IFS
Pack 6	ISO 9001 + ISO 22000 + HACCP/GMP + BRC/IFS

WHY SGS

As the world's leading testing, inspection, verification and certification body, SGS has the unrivalled experience in the area of food safety and quality, with capabilities ranging across diverse and complex supply chains.

To date, nearly 9 000, medium and international companies use SGS as their certifying body to audit their food safety management systems against various international standards, confirming SGS as the world's preferred certifying body in food safety.

Audits are a tool to improve the efficiency of clients' processes, i.e. increase profitability. Audit services are not only a measurement tool but also a building block of continuous improvement systems. They recognise the past efforts and achievements and materialise the impetus of clients' business. The SGS approach is transparent and logical, which is why we become the preferred partner towards improvement and in meeting business objectives.
